# DIFFICULTY

INTERMEDIATE

## MATERIALS

- Any yarn in *beige, white and black* colour.
- A pair of safety eyes and washer (*I use 10mm, blue resin eyes*)
- Crochet hook that matches the size of your yarn
- Stuffing
- Tapestry/yarn needle
- Stitch marker
- Scissors
- A hot glue gun
- Ballpoint pins for assembly

## SIZE

I used Bali cotton yarn in size #2 (sport) and a 2.50mm crochet hook. My Gojo turned out approximately 10cm (3,9 inches) tall.

## ABBREVIATIONS

R = round/row

ch = chain

st(s) = stitch(es)

sc = single crochet

dc = double crochet

hdc = half double crochet

tc = triple crochet

[...] = a total of [...] stitches on that round

inc = increase (2sc/dc/tc in 1 st)

dec = decrease (sc/dc/tc in 2 st)

BLO = back loop only

FLO = front loop only

sk = skip

slst = slip stitch

x(...) = repeat (...) times

## SEALING METHOD

I often use this method to get rid of some tails because it saves more time than weaving the tails in one by one. However, make sure the area that you want to "seal" is not visible, thus, not making it ugly.

1. Hold the tail to your piece. If you have more than 1 tail, you can twist it to become one.

2. Apply a small amount of hot glue gun, quickly and carefully press it using a metal flat object, I'm using my scissors.

3. Cut off the tail and you're done.

## TOP HAIR

*(white)*

*Follow these instructions:*

1) Using white yarn, 6sc in magic ring. Then, inc x6 [12]

2) Now, we're going to start making the strands.

Ch 15, *(starting from 2nd ch from hook)*

2sc, hdc, 2dc, 8tc, hdc.

*Skip 1 st, slst.*

3) Make the next strand:

Ch 13, *(starting from 2nd ch from hook)* 2sc, hdc, 2dc, 6tc, hdc.

*Skip 1 st, slst.*

4) Repeat step 2 and 3. Now you have 4 strands.

5) Repeat step 2 one more time.

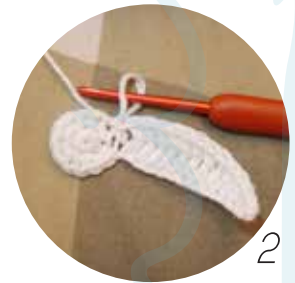

6) Make the last strand:

Ch 9, *(starting from 2nd ch from hook)*

2sc, hdc, 2dc, 2tc, hdc.

*Skip 1 st, slst.*

7) Slst and weave in/seal off the tail.

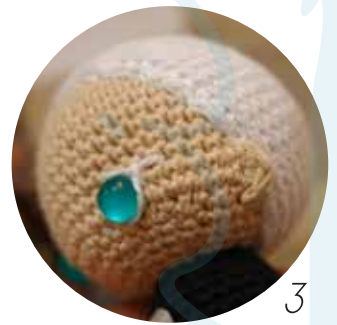

## ASSEMBLY

*I recommend to use ball point pins for assembly. This way will help you to keep the pieces in place and make it easier to do the sewing.*

*I'm using a hot glue gun to attach some of the parts, but if you make this amigurumi for kids, I recommend to make it fully sewn.*

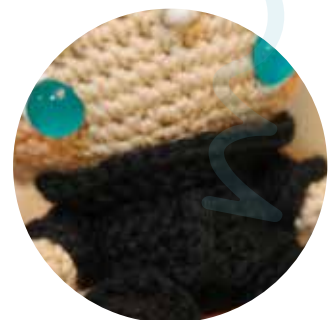

- 1) Sew the body to the head.
- 2) Sew the hair base to the back of the head diagonally like so:
- 3) Sew the ears on both sides of the face, approximately 4sts away from the eye and in the same level as the eye.

- 4) Sew the legs to the body, approximately below R5 of body, and 4sts apart.
- 5) Wrap the shirt around the body, overlapping a little in the middle of the front body.
- 6) (*Optional*) You can insert wire inside but not recommended if you make this amigurumi for kids. Then, bend the arms downwards. If you don't insert wire, directly sew the arms facing downwards

- 7) Wrap the collar around the neck and secure it. Make it loose, don't make it too tight.

8) Using ball point pins, mark a horizontal line starting from the right side of the hair base on R12 (approximately 9sts away from the loop aligned on the center of the face on R12 of the hair base), to the back, then to the left side of the hair base. Don't mind moving to any rounds as long as it's a horizontal line.

*Before starting to make the strands, start off by chain 1.*

*(illustrations only)*

9) We're now going to make the lower back hair first:

A) Ch 11 on the loop that you put your first ball point pin.

B) (starting from 2nd chain from hook) 2sc, hdc, 2dc, 5tc [10]

C) Skip 2 loops, slst on the 3rd loop towards the next ball point pin.

A

C

(You can move to any rounds of the hair base, as long as it forms a straight line towards the next ball point pin.)

D) Ch 11, (starting from 2nd chain from hook) 2sc, hdc, 2dc, 5tc [10]

E) Skip 2 loops, slst on the 3rd loop towards the next ball point pin.

F) Repeat Step D and E five more times until you have a total of 7 strands of lower back hair.

G) Fasten off, weave the tails in, arrange them neatly then glue them in place.

10) Using ball point pins, mark a straight line starting from the loop that you started the lower back hair, to the loop that you ended the lower back hair.

11) We're now going to make the upper back hair:

A) Ch 11 on the loop that you put your first ball point pin.

B) *(starting from 2nd chain from hook) 2sc, hdc, 2dc, 5tc [10]*

C) Skip 2 loops, slst on the 3rd loop towards the next ball point pins.

D) Ch 13, *(starting from 2nd chain from hook) 2sc, hdc, 2dc, 7tc [12], skip 2 loops, slst on the 3rd loop towards the next ball point pin.*

E) Ch 15, *(starting from 2nd chain from hook) 2sc, hdc, 2dc, 9tc [14], skip 2 loops, slst on the 3rd loop towards the next ball point pin.*

F) Repeat step E.

G) Repeat Step D.

H) Ch 11, *(starting from 2nd chain from hook) 2sc, hdc, 2dc, 5tc [10], skip 2 loops, slst on the 3rd loop towards the next ball point pin.*

I) Fasten off, weave the tails in, arrange them neatly then glue them in place.

A

I

12) Using ball point pins, mark the *middle* hair line (*silver pins*) starting on the last round of the hair base and to the back. Then, mark the lower *left* strands (*blue pins*) approximately 3sts away from the *middle* hair line, starting from the 2nd last round of the hair base, and to the back. Do the same for the lower *right* strands (*pink pins*).

**13)** Now we're going to make the lower *left* and *right* strands:

A) We're making the *left* strands first, *starting from the back*. Starting from the loop 7 rounds away from the last round of the hair base.

B) Ch 14, (*starting from 2nd chain from hook*) 2sc, hdc, 2dc, 8tc [13], *skip 2 loops, slst on the 3rd loop towards the next ball point pin.*

C) Ch 12, (*starting from 2nd chain from hook*) 2sc, hdc, 2dc, 6tc [11], *skip 2 loops, slst on the 3rd loop towards the next ball point pin.*

D) Fasten off. Do the same for the lower *right* strands (*pink pins*), *but this time we're making the strands from the front*. Starting from the loop on the 2nd round from the last round of the hair base.

E) Repeat step C.

F) Repeat step B.

G) Fasten off, weave the tails in, arrange them neatly then glue them in place.

A

B

G

**14)** We're now going to make the *middle* hair line.

A) We're making right side first. Starting from the loop on the last round of the hair base. (*Picture on the next page*)

B) Ch 15, (*starting from 2nd chain from hook*) 2sc, hdc, dc, 10tc [14], *skip 2 loops, slst on the 3rd loop towards the next ball point pin.*

C) Repeat step B one more time.

D) Ch 17, (*starting from 2nd chain from hook*) 2sc, hdc, dc, 12tc [16], *skip 2 loops, slst on the 3rd loop towards the next ball point pin.*

E) Now we're making the left side. For each strands, you'll slst to the same loop that you did for the other side, so *both strands from the left and right sides will be lined across.*

(*pictures on the next page*)

F) Ch 17, (starting from 2nd chain from hook) 2sc, hdc, dc, 12tc [16], skip 2 loops, slst (on the loop that started step D).

G) Ch 15, (starting from 2nd chain from hook) 2sc, hdc, dc, 10tc [14], skip 2 loops, slst.

H) Repeat step G one more time.

I) We're making an extra strand: Ch 11, (starting from 2nd chain from hook) 2sc, hdc, dc, 6tc [10], slst on the same loop.

A

F

I

15) All strands should be arranged like this. Then, glue them in place.

16) Attach the top hair on top of the head. with the shortest strand on the back part. Arrange the strands like this.

17) Don't forget to apply light blush on the cheeks to make him cuter.
